Description: 200A SURFACE UNMTRD 9X21

UPC No 784567578454

Home > Service Entrance > Surface - UnMetered

National Electric Code requires electrical distribution equipment to be rated as “Service Entrance”, wherever electrical power enters a building or other structure. Service entrance products are typically utilized on single-family residences and mobile homes. Midwest Electric offers a broad range of surface mount and pedestal units, factory assembled and wired. Pedestal units come standard with loop feed lugs to reduce installation time and labor expense. Service Entrance equipment is made of heavy, galvanized G-90 steel, preventing corrosion and fading.

Descriptors

Category	Surface - UnMetered

Specifications

Heads	1
Mounting	Surface
Amps	200.0 A
Metering	Unmetered
Receptacles	None
Feed	Overhead
Installed Breaker	CB4200H
Additional Breaker Spaces Per Head	4
Wiring Configuration	Series
AIC	22,000
Cabinet Size	9 X 21
Circuit Protection	Yes
Hub Provision	Yes
Load Center	LCBS LCTL
Loop Feed	No
Phase	1
Unit Weight	19.0 lb
Volts	120/240
