

e2XHD 6-Port Copper Cassette Kit

APPLICATION

The e2XHD Patching System is an easy-to-connect, high-density solution that provides simple termination and improved cable routing for both fiber and copper applications. Cassettes quickly snap-in and pull out of e2XHD high-density angled and flat panels, making installation easier than ever. Copper cassettes are available either on pre-terminated trunks or with field-terminated connectors. A QuickPort® Connector Removal Tool is available to remove connectors from cassettes.

SPECIFICATION

Copper cassettes shall snap into rear of panel and shall require no tools to remove. Copper cassettes shall accept six ports and be available kitted with six QuickPort® connectors. Cassettes shall meet all ANSI/TIA-568-C.0 requirements, and connectors shall meet all ANSI/TIA 568-C.2 requirements and applicable standards.

FEATURES

- Copper cassettes are available empty or kitted with QuickPort connectors
- Connectors easily snap into cassette after termination
- Alignment tabs on rear of panel ensure upright insertion of cassettes
- To remove cassettes from panel, simply pull out handle using release latch
- QuickPort Connector Removal Tool is available to remove connectors from cassettes

DESIGN CONSIDERATIONS

- Panel holds up to 8 cassettes (48 copper ports) per rack unit (1RU and 4RU e2XHD flat and angled panels available)
- Six copper ports per cassette

PHYSICAL SPECIFICATIONS

Materials: Cold-rolled steel and high-performance plastics
Capacity: Six QuickPort® Connector ports
Connector Body: High-impact, fire-retardant plastic rated UL 94V-0

STANDARDS COMPLIANCE

- Cat 6A connectors meet ANSI/TIA-568-C.2 component and channel requirements, compliant with FCC Part 68; UL Listed; IEEE 802.3an for 10GBASE-T over UTP cable
