

UPC Code: 07847774687

Country Of Origin: China

OSF20-IUW

Brand Features

The Fixture Mount PIR Wet Location Integral Luminaire Occupancy Sensor (OSF20) is designed to be mounted directly into a luminaire and is ideal for indoor or outdoor wash down locations such as food processing plants, warehouses and manufacturing plants. The OSF20 offers a sensor and relay in one device. The wiring and housing of the sensor is installed adjacent to the ballast and hidden from view behind the reflector cover. Only the PIR detector dome lens and locking ring are visible on the exterior of the fixture. The sensor comes with two interchangeable lenses for use in a 360° high bay general area and low bay applications. It also includes an aisle mask accessory.

Item Description

Outdoor Passive Infrared (PIR) Occupancy Sensor to mount internal to task lighting fixtures, 360 degree high-bay lens (20-40'), 7.5" wire lead length, 120/208/220/230/240/277/347V

Features and Benefits

- IP65 rated
- Uses PIR technology to detect motion
- Unit includes interchangeable 360° high-bay (20-40') and 360° low-bay (8-25') lenses and an aisle mask accessory
- Adjusts time delay to 30 second, 10, 20 and 30 minutes
- The relay uses zero-crossing circuitry to provide reliable, long-life operation
- A green LED light blinks when motion is detected
