

1/2 x 7" Stainless Steel Wedge Anchor

Part Number WS12700
UPC 781002811046

Stainless Steel Wedge Anchors are fully threaded expanding anchors consisting of a stainless steel body and expansion clip, for use in normal and lightweight concrete. They feature a pilot on the hammered end to prevent first thread damage and are a non-bottom-bearing anchor. Common applications for use include structural connections, cable trays, strut, pipe supports, fire sprinklers and piping supports in concrete substrate. For installation instructions and weight loads, reference technical data sheet.

Physical Characteristics

Anchor Type	Wedge
Thread Style	Fully
Thread Type	UNC
Size	1/2 x 7"
Anchor Diameter	1/2"
Anchor Length	7"
Thread Per Inch	13
Material	304 Stainless Steel
Cement Type	Various PSI

Packaging Details

Included	Washer & Nut
Standard Qty	50
Price Per	100
Package Length	8.43
Package Width	5.91
Package Height	3.94
Package Weight	18.40

Performance Data

Pre-Drill Size	1/2"
Applications	Normal And Lightweight Concrete
Special Features	Corrosion Resistant, Expansion Clip, Pilot End to Prevent First Thread Damage When Installing
Cement Type	Various PSI

Certifications

UNSPSC	31162102
RoHS Compliant	Yes
