

WIRED FOR SUCCESS:

Powering Commercial Spaces

COMMERCIAL WIRING DEVICES

#LegrandImprovingLives

Fast. Accurate. Safe.

TOUGH DEADLINES. CHANGING CODES. RISING COSTS.

We know the challenges you face on every job. That’s why at Legrand we are committed to offering you the best innovative electrical wiring solutions that will make every install faster, safer and accurate the first time – every time.

From healthcare spaces to commercial offices, we have the wiring devices you need to boost your productivity without sacrificing precision or safety.

FEATURED SOLUTIONS

PlugTail® Wiring Devices	4
Commercial Grade Receptacles	5
Hospital Grade Receptacles	6
GFCIs	7
USB Charging Devices	8
Plug Load Control	9
LED/Night Light Combinations	9
Occupancy & Vacancy Sensors	10
Dimmers	11

A GROWING DEMAND:

“The wiring device market size stands at an estimated USD 55.9 billion in 2023, and it is expected to advance at a compound annual growth rate of 6.4% during 2024-2030, to reach USD 84.9 billion by 2030.”*

The increase in construction of commercial buildings, such as offices, hospitals, retail spaces and educational institutions, is driving the rising demand for commercial wiring devices globally.

The Legrand Advantage

- **High-Quality Products:**
Designed from durable, top-performing materials.
- **Sustainable Practices:**
Fewer resources to get the job done right.
- **A Brand You Can Trust:**
130+ years of electrical wiring excellence delivering solutions you want and need.

Powering Productivity

PLUGTAIL® WIRING DEVICES

Easy to install, change out and upgrade, PlugTail wiring devices allow you to continuously reconfigure to meet a building's electrical requirements as a space transforms – without the time and expense of rewiring.

From sensors to switches, standard and controlled receptacles to surge protection devices, the Plugtail family offers cost-effective and code-compliant solutions that will future-proof your projects and make every install 5x faster than conventional wiring devices.

Features:

- Devices install in less than a minute
- No preparing, stripping, looping or taping
- Meet NEC® and Energy Code requirements

- ### Applications:

| ▪ Healthcare | ▪ Retail |
| ▪ Industrial | ▪ Commercial Office |
| ▪ Education | ▪ Multi-Dwelling |
| ▪ Institutional | |
| ▪ Entertainment | |

A Grade for Every Environment

COMMERCIAL GRADE RECEPTACLES

Every commercial environment has unique electrical wiring needs. That's why we offer a comprehensive line of commercial grade receptacles designed to meet the high demands of commercial spaces. From spec grade to heavy-duty industrial grade, we have a receptacle ready to meet the power and connectivity needs of your space.

Features:

- Durable construction for dependable performance
- Tamper-resistant options available
- PlugTail® options available

- ### Applications:

Connections Designed for Critical Care

HOSPITAL GRADE RECEPTACLES

Healthcare spaces are now technology dependent – and a strong electrical infrastructure is the pulse powering these facilities to perform at their best. Our connections deliver dependable power right where it’s needed most to promote patient healing, boost staff efficiency and meet the high-pressure demands of critical care moments when failure is not an option.

Features:

- Heavy-duty construction with highly durable materials
- Rigorous testing to meet the highest industry standards
- Tamper-resistant designs to reduce electrical hazards

Applications:

- Patient Care
- Operating Rooms
- Urgent Care
- Nursing Homes
- Diagnostics
- Behavioral Health Facilities

Always Ready to Protect

GFCIs

Built to meet rigorous industry standards, our GFCIs offer reliable performance even in heavy-use commercial environments. With easy installation and durable construction, each device is designed to safeguard workspaces against electrical hazards such as shocks and short circuits.

Whether your job calls for receptacles, combination devices, tamper-resistant, audible alarm, specification grade or more – we have a reliable GFCI innovation just right for you.

Features:

- Automatic self-test with SafeLock® Protection
- Indicator lights for easy status checks
- High-impact-resistant, thermoplastic construction

Applications:

- Healthcare
- Education
- Institutional
- Retail
- Commercial Office
- Multi-Dwelling

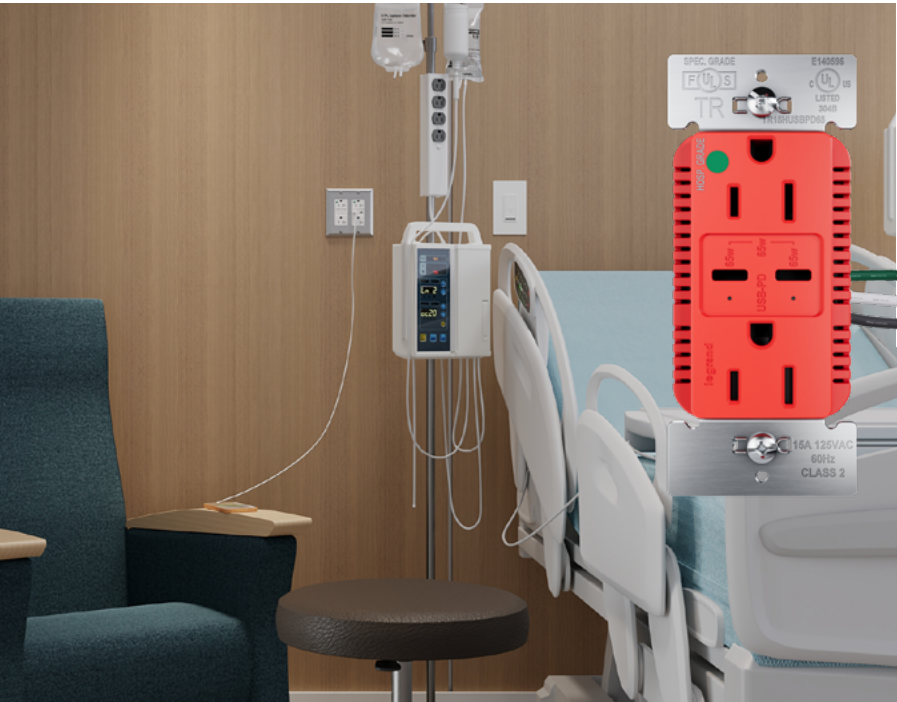

Meeting the Need for Speed

USB CHARGING DEVICES

Explore our extensive selection of USB charging solutions designed to provide today's commercial spaces with all the power modern life demands. Enhanced with features for superior convenience, speed and ease, our USB devices include the fastest options in the industry and help people stay connected to those who matter most.

Features:

- Choose from USB Type-A/A, USB Type-A/C and USB Type-C/C port configurations
- Power Delivery and Hospital Grade options available
- Options with charging status indicator lights available

Applications:

- Healthcare
- Education
- Institutional
- Retail
- Commercial Office
- Multi-Dwelling

Compliant Commercial Jobs

PLUG LOAD CONTROL

Every commercial space is different. That's why we have two types of plug load control systems to meet every need and code: schedule-based and occupancy-based.

Features:

- Options for permanently marked receptacles that meet code
- Feed-thru capability allows for downstream control of multiple receptacles
- Energy consumption and energy bill savings

Applications:

- Healthcare
- Education
- Institutional
- Retail
- Commercial Office

Light Up the Night

LED/NIGHT LIGHT COMBINATIONS

From tamper-resistant to touch-control to GFCI combos, we offer a full line of night light devices designed to meet the demands of commercial applications. These devices are a great way to add a touch of safety without losing an outlet.

Features:

- 5 adjustable settings including OFF
- Hidden sensor automatically controls night light
- Replaces any standard receptacle

Applications:

- Healthcare
- Industrial
- Education
- Institutional
- Entertainment
- Retail
- Commercial Office
- Multi-Dwelling

Cutting-Edge Technology for Energy Efficient Spaces

OCCUPANCY/VACANCY SENSORS

Meet code requirements and say goodbye to wasted power with our wall box and ceiling-mounted occupancy/vacancy sensors. These devices intelligently detect human presence to add automated lighting control for smarter and more sustainable commercial spaces.

Features:

- Available in wall box, ceiling and wall-mounted solutions for both line and low-voltage
- Multiple technology options to fit the needs of any space including PIR, Ultrasonic & Dual-Tech
- Options for manual ON, auto ON or partial ON with adjustable settings for time delay and sensitivity

Applications:

- Multi-Dwelling
- Hospitality
- Education
- Commercial Office
- Healthcare

Convenient Control for Commercial Spaces

DIMMERS

From saving energy to enhancing the ambiance of your commercial space, our extensive line of easy-to-install dimming solutions delivers an unmatched level of control while reducing power consumption.

Features:

- 0-10v dimming options available in a variety of user interfaces including toggle, wide slide, radiant® & adorne®
- Tru-Universal dimmers work with any dimmable bulb or fixture in the light commercial space (except for 0-10v drivers)
- Constant memory features return lights to previous settings

Applications:

- Multi-Dwelling ▪ Hospitality ▪ Education
- Commercial Office ▪ Healthcare

Cleaner Control for Cleaner Spaces

COMMERCIAL WAVE SWITCH

The Commercial Wave Switch is a touchless, germ-free lighting control solution that allows users to turn the lights on or off with just the wave of a hand. The device's durable construction features a chemical-resistant cover and lens for lasting, dependable performance.

Features:

- Compatible with both 120v and 277v systems
- Adjustable range to sense movement from 1/2-inch to 4-inches in front of switch
- Back-wire pressure plate terminations for a quick and easy installation

Applications:

- Healthcare ▪ Hospitality ▪ Commercial Office
- Multi-Dwelling

Let's partner together to meet the electrical needs of your next commercial project.
