

Product End of Life Instructions

PowerLogic™ P3 Advanced Protection Relay

Potential disassembly risks

⚠ WARNING

HAZARD OF ELECTRIC SHOCK, ELECTRIC ARC OR BURNS

- Only qualified personnel should disconnect this equipment.
- NEVER work alone during the electrical disconnection of the relay.
- Turn off all power supplying this equipment before the relay disconnecting.
- Consider all sources of power, including the possibility of back feeding.
- Always use a properly rated voltage sensing device to confirm that all power is off.
- Before disconnecting the wires of inputs current transformers, short-circuit the current transformer secondary circuits.
- Finish by disconnecting the device to the protective earth and to the functional earth.

Failure to follow these instructions can result in death, serious injury, or equipment damage

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	A	Display card B	242.2	
To be depolluted	B	Motherboard card	222.1	
To be depolluted	1	Power supply card - C	357.8	Slot 1 - C
To be depolluted	2	I/O Card 1 - G	239.8	Slot 2 - G
To be depolluted	3	I/O Card 2 - G	239.8	Slot 3 - G
To be depolluted	4	I/O Card 3 - G	239.8	Slot 4 - G
To be depolluted	5	I/O Card 4 - G	239.8	Slot 5 - G
To be depolluted	6	Option card - K	176.1	Slot 6 - K
To be depolluted	8	Analog card 1	714.4	Slot 8 - 1
To be depolluted	9	Communication card N	167.5	Slot 9 - N

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	Protect electrical network, medium & high voltage network - Maximize energy availability and the profits generated by customer installation while protecting life and property.
Product reference	REL53015
Total representative product mass	5220 g
Representative product dimensions	W 264 x H 177 X D 208 mm
Date of information release	09-2025

Additional information

Legal information	The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	38% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
