

Simplify installations with the most compact Combination Service Entrance Device (CSED)

Square D™ QO™ and Homeline™ 300A/400A CSEDs

[Smarter installs start here.](#)

Square D QO and Homeline 300A/400A CSEDs combine the meter socket and outdoor disconnect into a single, compact, lightweight enclosure, designed for plug-on neutral circuit breakers. Each enclosure features an integrated load center, offering flexible options to stay compliant with evolving code requirements (AFCI, GFCI, and surge protection).

Add a Schneider Energy Monitor to help homeowners track their energy usage and save money. Further enhance QO CSEDs with Square D control relays for circuit-level control. Built with future-ready flexibility, these CSEDs support alternate power sources such as solar, generators, and battery storage.

Life Is On

Schneider
Electric

Powerful features. Minimal footprint.

The 300A/400A CSED combines a compact design and plug-on neutral technology for easy installation, with optional energy monitoring and circuit-control.

Easy installation

Compact, lightweight enclosure includes meter socket, main outdoor disconnect and load center

Plug-on neutral interior located on top of enclosure for easier breaker wiring

Customizable

Surface, semi-flush, and combo mounting styles available

Solar, generator, and battery-ready with bussing rated up to 225A

Field installable main offers maximum design flexibility

Schneider Energy Monitor-ready and add control relays for circuit-level control in QO panels

Compliance

NEC-compliant compartmentalization

Two-piece dead front allows easy access to mains/interiors while avoiding energized components

**8/16 options include feed-thru lugs for subpanel feed

Ring Underground Feed***

Dimensions

43.0" x 28.3" x 7.9"

Ringless Underground Feed***

Dimensions

43.0" x 28.3" x 7.9"

***For overhead feed, order kit OCK400 separately

Compatible accessories for 300A/400A CSED

Catalog number	Description	
FK400	Semi-flush flange kit for 400A ring and ringless-type meter mains and all-in-ones	
OCK400	Overhead feed trough for 400A ring and ringless meter mains and all-in-ones	
C MELK4	Mechanical lug kit for 400A CSEDs	
MMLRK	Anti-inversion clip for lever bypass CSEDs. Prevents installing meter base upside-down	
SU400PVCHA3	3" conduit adapter kit for 400A ring- and ringless-type meter mains and all-in-ones	
QOFP HOMFP	Fills branch circuit opening on QO/HOM covers	
WISEREMPVZ	Schneider Energy Monitor with 2 sets of CTs	
QO200PWX120	Square D QO Control Relay, 20A	
QO200PWX240	Square D QO Control Relay, 30A	
QO260PWX240	Square D QO Control Relay, 60A
